Attention: Mr. Paul Jacobson

Re: Approval of Permit Transfer
Permit Number(s) Referenced Below
Facility Location: Rope Ferry Road, Waterford, CT 06385-0128
EPA I.D. No. CTD 000845198

Dear Ms. McMullin and Mr. Jacobson:

The Department of Environmental Protection ("the Department") hereby gives notice that the request for transfer of the permits, registrations and applications listed below has been approved in accordance with the application submitted for permit transfer. The transfer of the permits, registrations and applications from *Northeast Nuclear Energy Co.* to *Dominion Nuclear Connecticut, Inc.* shall be effective upon completion of the closing of the *Millstone Nuclear Power Station* facility provided: 1) the closing takes place within thirty (30) days of date of this notification and 2) *Dominion Nuclear Connecticut, Inc.* submits to the Department, immediately after the closing, the enclosed form signed by both parties confirming the completion of the transfer of the *Millstone Nuclear Power Station* facility. Should the transfer fail to take place, please promptly notify the Department in writing.

Dominion Nuclear Connecticut, Inc. shall comply with all terms and conditions of the permits and registrations referenced below.

Permits, Registrations and Applications Approved for Transfer

Description	Permit, Registration or Application No.
AIR Permits	
1) General Permit to Operate an Emergency Engine	199-0600-GPEE
2) Permit for Fuel Burning Equipment (ESF Compressor)	199-0051
3) Permit for Fuel Burning Equipment (ESF Compressor)	199-0052
4) Permit for Fuel Burning Equipment (ESF Compressor)	199-0053
5) Permit for Fuel Burning Equipment (Fire Training)	199-0043
6) Permit for Fuel Burning Equipment (Diesel Trash Water Pump)	199-0044
7) Permit for Fuel Burning Equipment (185 CFM Compressor)	199-0045
8) Permit for Fuel Burning Equipment (250 CFM Compressor)	199-0046

(Printed on Recycled Paper)
79 Elm Street • Hartford, CT 06106 - 5127

An Equal Opportunity Employer

9) Permit for Fuel Burning Equipment (B&W Boiler)	199-0007
10) Permit for Fuel Burning Equipment (B&W Boiler)	199-0008
11) Permit for Fuel Burning Equipment (Colt MP3 Diesel Generator)	199-0009
12) Permit for Fuel Burning Equipment (Colt MP3 Diesel Generator)	199-0010
13) Permit for Fuel Burning Equipment (E-M SBO Diesel Generator)	199-0017
14) Permit for Fuel Burning Equipment (Unit 2 Diesel Generator)	199-0055
15) Permit for Fuel Burning Equipment (Unit 2 Diesel Generator)	199-0056
AIR Registrations	
16) Operation of a Unit 1 Combustion Turbine	N/A
17) Unit 1 Diesel Engine	R15G-D01
18) Three auxiliary heating boilers	R15G-A01
WATER Permit/Application	
19) NPDES	CT0003263
20) NPDES Permit Renewal Application (for NPDES Permit-CT0003263)	199500295
21) Emergency Authorization	EA 0100176
22) General Permit for Minor Photographic Processing Wastewater	GPH000354
INLAND WATER Diversion Registrations	
23) Long Island Sound #1 Intake Unit	2000-017-PWR-SU
24) Long Island Sound #2 Intake Unit	2000-018-PWR-SU
25) Long Island Sound #3 Intake Unit	2000-019-PWR-SU
26) Millstone Well No. 2	2000-020-PWR-GR
27) Millstone Well No. 3	2000-021-PWR-GR
28) Millstone Well No. 4	2000-022-PWR-GR
OLISP Permits	
29) Installation and Maintenance of Unit 1 Sluiceway	199802106-KZ
30) C.O.P. to Replace and Maintain Unit 1 Fish Barrier	COP-98-101-KZ
31) C.O.P. to Install Unit 2 Fish Sluiceway	COP-99-142-MG
32) Permit for Structures	199501265-DS
33) Construct and Maintain Unit 3 Channel and Outfall Structure	SD-76157
34) Permit to Construct and Maintain Structures	SD-83-267
35) Permit to Construct and Maintain Structures	SD-77191
36) Certificate to Construct and Maintain Well Intake Structure	2451
37) Permit to Construct and Maintain Structures	SD-78124
38) Permit to Construct and Maintain Structures	SD-78130
39) 401 Water Quality Certification for 75' Sandbag Dike	N/A
40) 401 Water Quality Certification for Construction and Maintenance of Outfall Structures, Discharge Structures and Quarry Cuts	N/A

Enclosed please find, for the new permittee, *Dominion Nuclear Connecticut, Inc.* copies of the permits, registrations and applications listed as being approved for transfer to their ownership.

Radiation registrations authorizing the use radioactive material are non-transferable. It should be noted that the Department is in receipt of a radiation registration submitted by the new permittee,

Dominion Nuclear Connecticut, Inc. Radiation Registration No. 1023, authorizing the use of radioactive materials at the Rope Ferry Road, Waterford, CT facility, has been issued to ***Dominion Nuclear Connecticut, Inc.***

A NOx RACT Compliance Plan is on file with the Bureau of Air Management. If not previously done so, ***Dominion Nuclear Connecticut, Inc.*** must submit a revised cover sheet (Part A. General Information and Part B. Certification) of the Compliance Plan to the Bureau of Air Management. Please call the Bureau of Air Management at 860-424-4152 to confirm the submittal requirements.

Title V applications pending with the Bureau of Air Management are non-transferable. Therefore, if not previously submitted, ***Dominion Nuclear Connecticut, Inc.*** must submit a new application form or parts of the application form to the Bureau of Air Management. Please call the Bureau of Air Management at 860-424-4152 to confirm the submittal requirements.

The Bureau of Waste Management is in receipt of your RCRA Part A application and acknowledges the transfer of the above referenced facility from ***Northeast Nuclear Energy Co.*** to ***Dominion Nuclear Connecticut, Inc.*** The Department files, including the RCRA Part B post closure permit application, have accordingly been updated to reflect the change in ownership. Please be advised that ***Dominion Nuclear Connecticut, Inc.*** must, within six months of the date of the change of ownership or operational control of the facility, establish financial assurance for closure and post closure of the facility pursuant to 40 CFR 265, subpart H and 40 CFR 270.72. Until such time as ***Dominion Nuclear Connecticut, Inc.*** has demonstrated compliance with the financial requirements, ***Northeast Nuclear Energy Co.*** shall be responsible for this requirement.

Concerning the registration for a hazardous waste generator, EPA and Department records need only be updated with the new owner's name. The facility EPA ID number, ***EPA I.D. No. CTD000845198***, as well as the status of ***large*** quantity generator will remain unchanged. If not previously done so, the Department's "Request for Change(s) of RCRA Notifier Data Base" form and the EPA form 8700-12 entitled "Notification of Regulated Waste Activity", must be completed by ***Dominion Nuclear Connecticut, Inc.*** and submitted to the Department at the address identified on the Department's form.

Please be advised that a new ***Underground Storage Facility Form (EPHM-6)*** must be filed with the Department and the local fire marshal if there are any nonresidential underground storage tanks located on site. Under Section 22a-449(d)-1(f) (Transfer of Facilities) no owner or operator shall transfer ownership, possession or control of any new or existing facility without full disclosure to the transferee of the status of the facility with respect to compliance with the Underground Storage Tank (UST) regulations at least 15 days prior to the transfer. Such disclosure shall include an up-to-date copy of the information submitted to the commissioner pursuant to subsection (d) (Reporting) of the UST regulations.

General permits issued by the Bureau of Water Management, as a rule, are non-transferable. Therefore, ***Dominion Nuclear Connecticut, Inc.*** must submit a new registration for any active, non-transferable general permit issued to ***Northeast Nuclear Energy Co.*** According to Department records, ***Dominion Nuclear Connecticut, Inc.*** has submitted a General Permit Registration for the following general permit activities:

General Permit for the Discharge of Industrial Stormwater
General Permit for Water Treatment Wastewater

GS1000626
CWT000136

Please be aware of the General Permit for Minor Boiler Blowdown Wastewaters. Although no registration is required, *Dominion Nuclear Connecticut, Inc.* must comply with the terms and conditions of this

general permit, if applicable. A copy of this general permit may be obtained from the Bureau of Water Management 860-424-3018.

Section 22a-363b of the Connecticut General Statutes speaks to the issue of routine maintenance for permitted structures, fill, obstructions and encroachments. Please be aware that routine maintenance, by definition, refers only to the replacement and repair of out-of-water structures. Work associated with in-kind replacement or repair of "in-water" structures, as a rule, requires a permit or certificate of permission from the Office of Long Island Sound prior to undertaking such activity.

If applicable, be sure to have executed the appropriate Property Transfer Form, required under the Property Transfer Program administered by the Bureau of Water Management. Contact the Bureau of Water Management, Property Transfer Program at 860-424-3705 for additional information.

Please be aware that in addition to permit transfer fees, there may be other fees, such as annual fees or emission fees, associated with the permits being transferred. These fees from each of the Department's programs vary depending on the facility's specific activity. The Department will invoice the new permittee for such fees prior to the required payment date.

Northeast Nuclear Energy Co. and *Dominion Nuclear Connecticut, Inc.* should note that if they wish to conduct any activity authorized by a permit from this Department, they must obtain the appropriate permits prior to conducting such activity. Please be aware that performing an activity without a permit required by Title 22a of the Connecticut General Statutes may subject you to an injunction and penalties.

If you have any questions about this permit transfer approval letter, please contact Robert Hannon in the Office of the Ombudsman at 860-424-3245.
